¹To use NSN Connect on an iPhone, iPad, or iPod Touch, you must first download the NSN Connect App from the App Store

²This is not an all-inclusive list of supported Windows Mobile devices. To be compatible with NSN Connect, a phone must have a touch screen and run Windows Mobile 2003, 5.x, 6.0, or 6.1. Windows Mobile 6.5 and 7.0 devices are currently not supported, but are expected to be in the future (early 2012). For a current list of Windows Mobile phones, visit <http://www.microsoft.com/windowsmobile/en-us/devices/devices.msp>.

³Windows Mobile 6.5 and 7.0 devices are currently not supported, but are expected to be in the future (early 2012).
